BBAD-104

# Bachelor of Business Administration

## Computer Fundamentals

JAMIA HAMDARD

# Contents

Preface	v
Unit 1	1
<b>Introduction to Computers</b>	
Definition and organization of a computer	
History and Evolution of Computers	
Different Types of Computer	
Unit 2	27
<b>Functional Units of Computers</b>	
Logical units of a computer	
Functional units of a computer	
CPU (Central Processing Unit)	
MU (Memory Unit)	
I/O Input/Output Unit	
Secondary Storage	
Unit 3	61
<b>Number System and Data Representation</b>	
Different number systems	
Decimal number system	
Binary number system	
Octal number system	
Hexadecimal number system	
Floating point representation	
Character representation	
Unit 4	93
<b>Operating Systems</b>	
Operating System Concepts	
Roles of Operating System	
Operating System as Interpreter or Translator	
Operating System as Resource Manager	
Unit 5	113
<b>Elements of Information Technology</b>	
Range of IT Applications	
Multimedia	
The Internet, Intranets and Extranets	
Intelligent Systems	
Expert Systems
