BCAD-203

Programming in 'C'

JAMIA HAMDARD

Contents

vii

word

1

Programming in C
Programming languages
About C
Evolution of C
Structure of a C Program
Compilers and Interpreters
Compiling a C Program
Pseudo Codes
A Simple C Program

19

Features of C

C Tokens
Data Type
Variables
Constants
Operators
Expressions
Input/Output

51

Branching and Looping

Control Statements
Conditional Statements
Conditional Operator
Loops in C
The Break Statement
The Continue Statement
The Exit() Function
The GoTo Statement

69

Arrays and Strings

Introduction to Arrays
One Dimensional Array
Strings
Two Dimensional Array
Multi-dimensional Array

81

Functions

Introduction to Functions
Function Definition
