About Jamia Hamdard

'Committed to excellence in higher education'

Jamia Hamdard (JH) was declared as a deemed University by the Govt. of India in 1989 on the recommendation of University Grants Commission (UGC) under the UGC Act 1956 in recognition of the services provided by erstwhile educational institutes established by HNF, the Hamdard National Foundation. These institutes built over a period of time included the Hamdard College of Pharmacy, Hamdard Tibbi College, Rufaida College of Nursing, the Institute of History of Medicine & Medical Research, and Indian Institute of Islamic Studies. The University was inaugurated by the then Prime Minister of India, *Shri* Rajiv Gandhi on August 1, 1989, who in his inspiring inaugural address applauded the efforts of *Late Janab* Hakeem Abdul Hameed saheb, the Founder, for setting up a number of institutions of learning which finally emerged in the form of Jamia Hamdard to, in the words of *Shri* Rajiv Gandhi, *"… enable minority (the Muslim) to go forward and help them to march forward"*.

Spread over a sprawling green campus of about 100 acres, located on a prime piece of land in South Delhi, Jamia Hamdard has ten Schools including a medical college, two hospitals – a 350 Hakeem Abdul Hameed Centenary allopathic Hospital and Majeedia, unani hospital – on its campus. It has a huge library building, archive centre, separate hostels for girls and boys, gymnasium, a large playground, residential quarters for the staff, and also an off campus in Kannur, Kerala.

The University has been maintaining a steady progress in all facets in its existence of over 25 years and is both nationally and internationally recognized for the quality of its students and research. The overall progress in this period has been excellent in terms of infrastructure and maintaining standard in higher education which is evident from the placement record of the University, high quality research, and publications and patents. The University is committed to excellence in tertiary education.

The Founder

The Founder-Chancellor of Jamia Hamdard, *Hakeem* Abdul Hameed, a renowned physician of the *Unani system* of medicine who served the poorest of the poors and also had dignitaries such as Prince Charles of England as his patient, was a philanthropist who always had public service as his driving force. *Hkm* Abdul Hameed set up a complex of educational institutions over a period of time which finally got amalgamated in Jamia Hamdard in 1989.

(14th Sept. 1908 – July 22, 1999)

The first institute that was built on the piece of land in Tughlaqabad which today houses the Faculty of Science was the Institute of History of Medicine and Medical Research. The foundation stone of this institute was laid down on November 15, 1962 by the then Prime Minister of India, *Pandit* Jawaharlal Nehru; the building was inaugurated by *Mrs.* Indira Gandhi, the Prime Minister of India in 70s. The Great Hakeem also set up several other institutes which include the Hamdard National Foundation, Hamdard Education Society, Hamdard Study Circle, Hamdard Public School, Ghalib Academy, the Centre for South Asian Studies, and Business & Employment Bureau.

Hkm Abdul Hameed was conferred the *Padma Shri* and *Padma Bhushan* by the Government of India, awarded the Avicenna Award by the erstwhile USSR in 1983, and was nominated as honorary member of the Academy of Medical Science, Iran. He served as Chancellor of Aligarh Muslim University. In October 2000, the Research Centre for Islamic History, Art and Culture (IRCICA) Istanbul, Turkey, presented IRCICA Award to him posthumously for Patronage in Preservation of Cultural Heritage and Promotion of Scholarship. *Hkm* Abdul Hameed was a true follower of Islam in letter and spirit and strongly believed in *"And spend in the cause of Allah and do good, for He loves those who do good for others" – Al Quran, 2:196.*

Chancellor

The Chancellor of Jamia Hamdard, Dr. Habil Khorakiwala, is a well known figure in the business world. He is the Chairman of Wockhardt Group and the President of Federation of Indian Chambers of Commerce & Industry (FICCI), the premier Industry Association of India. He has been the National Council member of the Confederation of Indian Industry (CII). He also served as the President of Indian Pharmaceutical Alliance, which is an industry association of top 12 Indian Pharmaceutical companies.

Dr. Habil Khorakiwala holds a Masters Degree in Pharmaceutical Science from the Purdue University, USA and is an alumnus of the Harvard Business School.

Mr. Khorakiwala has been nominated by the Government of India in various capacities in Government bodies. He has been a member of the National Managing committee of Indian Red Cross Society, and also a member of the Advisory Board of Council of Scientific and Industrial Research, CSIR. He is an active member of the National Manufacturing Competitive Council and of NIPER, the National Institute of Pharmaceutical Education & Research, set up by the Government of India.

Dr. Khorakiwala has received many prestigious awards such as The Ernst & Young Entrepreneur of the Year Award for 2004 in the 'Healthcare and Life Sciences' category and the Giants International Award 2003 for Business and Industry for his contribution to Indian business and industry.

Jamia Hamdard established in 1989, has various prominent feathers of schools in its crown like: Hamdard Institute of Medical Sciences & Research, School of Pharmaceutical Education and Research, School of Unani Medicine, School of Nursing & Allied Health, School of Chemical & Life Sciences, School of Interdisciplinary Sciences & Technology, School of Engineering Sciences & Technology, School of Humanities & Social Sciences, School of Management & Business Studies, School of Open & Distance Learning

Performance of the faculty is reflected by the assessment of NAAC which has accredited the university in 'A' grade. School of Pharmaceutical Education and Research has been marked No.1 by NIRF of MHRD.   Above distinguished faculties and available lab. facilities attract students to enroll in various course in big number conducted by School of Open & Distance Learning.

Major objective of the school is to provide opportunities for higher education to those who are not able to draw benefits from formal system of education. The Open Learning System allows a learner to determine his/her pace of learning and provides education at the doorstep of the learner. The mode of transaction is through self learning print material. It has further scope of students accessing material through internet and various other media. The School of Open & Distance Learning is approved by Distance Education Bureau (DEB-UGC) from time to time.

The SODL is offering two under graduate courses and eight post graduate diploma courses through distance mode, which are approved by DEB, UGC. These course are highly job oriented. Therefore, a large number of students from socio-economically deprived sections of the society are registered in the school.   The dream of our late Founder Hkm. Abdul Hameed Saheb, for education is being fulfilled by offering courses through distance mode because SODL Jamia Hamdard encourages minority by recognizing some of the Arabic Madrasa's of minority dominated pockets equivalent to senior secondary schools, which is a special consideration for minority in general and Muslim girls in particular who become eligible for enrolment in some of the under graduate ongoing programmes of study. The poor students particularly girls are pursuing the academic career along with their employment.

Without sacrificing the quality of education, the cost of education is kept very low so that the economically deprived sections may also get opportunity to fulfil their desire for acquiring education.

SCHOOL OF OPEN AND DISTANCE LEARNING

There has been a significant growth in the area of open & distance education around the world. Open Distance Learning (ODL) mode of education has been recognized as one of the effective tools of educationally empowering those sections of the society, which could not afford to join the formal on-campus education due to various reasons. As a result it is an effective tool for non-formal education. Presently, ODL institutions are not only imparting education as an alternative to the formal system but also making effective contribution in areas, such as vocational and technical education and even in high technology based education. The distance education also has potential to reach to un-reached and even marginalized and excluded groups of the society such as tribal populations and Muslim women. Open and distance education provides an opportunity to students for acquiring new knowledge and skills that are needed for their development. Jamia Hamdard being in education for a long time has taken initiatives to offer an opportunity to those students who are unable to get on-campus education and those who have limited access to educational resources.

The School of Open and Distance Learning (SODL) of Jamia Hamdard was established in 2004 to promote education through open and distance learning system. Its flexible and innovative methods of education to ensure 'independent learning' to anyone, anytime and anywhere. ODL programmes of Jamia Hamdard also envisage to provide an opportunity to girls from Muslim community, who by and large have been left out by the national educational endeavours.

Jamia Hamdard's study programmes under ODL are selective and customized to meet the learning requirements of knowledge seekers as well as to ensure that they learn at their own pace and convenience. Within the financial means of University, due care has been taken to keep the cost of education low, so that educationally backward sections can take advantage of University's programmes through ODL mode. This goal in view, the SODL of Jamia Hamdard has made concerted efforts to offer professional and job oriented courses with regular updates of curricula and study material and introduction of tools of Information Technology.

The Programmes of Study

Jamia Hamdard offer education through ODL mode in few selected programmes where University has tremendous strength. The courses are designed and developed with views to prepare a cadre of manpower with requisite knowledge and professional skills so that they can effectively function in the globalised economy, which is no doubt highly knowledge intensive. In its endeavors to cater for education and training needs of different socio-economic groups, the programmes have been carefully identified to fill the contemporary gaps in available courses offered by other institutions and the market demand, and/or to provide cost-effective options to the weaker sections of the society, who are unable to reap the benefit of development due to lack of adequate education, training and skills.

Without sacrificing quality of education, the cost of education is kept very low so that the economically deprived sections also may afford to pay fees and get benefit from the educational opportunity provided at the doorsteps.

POST-GRADUATE DIPLOMA IN PHARMACEUTICAL REGULATORY AFFAIRS (PGDPRA)

The main objective of this course is to provide an interdisciplinary knowledge of pharmacy and law as applicable in the field of pharmaceutical regulation at national and international levels. The course prepares the students to pursue career in pharmaceutical industry, drug licensing and control authorities, and export- import agencies dealing with the pharmaceuticals.

Programme code	654
Duration	Minimum one year and maximum two years.
Eligibility	A candidate seeking admission to the above programme must have passed Bachelor Degree in Pharmacy or Medical Sciences. A candidate having Bachelor Degree in any discipline with one year of experiences in Pharma Industry, Clinical Research, Regulatory affair and IPR will also be eligible.

COURSE CONVERGE

➢ An Introduction to Pharmaceutical Drug Regulatory Affairs
➢ General Pharmaceutical Laws and Guidelines
➢ Drug Regulatory Affairs in India
➢ Information and Quality Management
➢ Chemical, Pharmaceutical and Biological aspects of Regulatory documentation
➢ Clinical Trials and Health care policies
➢ International Licensing
➢ Regulatory considerations in controlled drug delivery and future aspects of Biopharmaceuticals.

Course Fee	Rs. 20000 per annum + Rs. 2000/- Examination Fee
