

Specification

Fridge with Glass Door

- Direct Cooling system with fan to even inside cold Air. Double layers standard glass door for Anti condensation .1 inner cabinet light, one canopy light, Drain auto evaporation system, Temperature: 0 to 10°C. Capacity: 250-340 Ltr.

Vertical Deep Freezer (- 20°C. Freezer) Capacity 340-400L

- Double walled unit, outer made of MS & inner made of S.S.fitted with CFC free refrigeration system with Emerson compressor. Horizontal models are supplied in Single/Double Compartments. Vertical models are provided with 2/3 Noses Trays.Temp.range from ambient to -20°C controlled by a solid state Microprocessor based PID Digital temp. indicator cum controller fitted with two indicators, On/Off switch capacity 6 cu ft (170 Ltrs.

Portable Photometer for Cell density

Colorimeter dedicated to measuring samples near the 600nm wavelength. Accepts 10 mm cuvettes, or 16mm tubes (Ehlenmeyer side- arm flask)

Mini Horizontal Electrophoretic unit –_for casting agarose gel and DNA analysis
