FUNDED RESEARCH PROEJECTS

1. Minor Research Project: Development of Transdermal Drug Delivery System of an Anti-hypertensive drug

Funded by: UGC, Aug., 2000 to July 2002 Amount Rs. 20,000/-.

2. Major Research Project : Development and evaluation of Targeted/ Controlled drug delivery systems for the treatment of rheumatoid arthritis

Principal Investigator; Dr. Asgar Ali,

Funding agency: AICTE (under R & D Scheme)

Amount : Rs **08 Lakhs** Start Year= 2002. Completed in Feb.,2005.

Scientific Importance and Relevance of the Project:

By targeting a medicament to the site of action in therapeutic concentration and preventing unnecessary exposure of the non-target tissues to the drug action, one can minimize the toxic effects to the drug and obtain better therapeutic action. At present the drugs used for the treatment of rheumatoid arthritis cause several side effects on long term therapy e.g. disturbance in platelet function, gastric damage and bleeding disorders etc. Therefore the treatment of rheumatoid arthritis offers a challenge and a targeted or controlled drug delivery system of several drugs is to be worked. Works has been carried out at National and International levels for the treatment of this disease by employing several approaches, however satisfactory breakthrough is not achieved yet. In the present work several approaches e.g. Phonophoresis, liposomal/ microspheres delivery and intra-articular delivery were tried.

The research work was relevant as per the need of Pharmaceutical industries for the effective treatment of arthritis. Several systems under the controlled delivery of drug can also be useful in the hospital e. g. making absorption of anti- arthritic drugs directly to the joints by phonophoresis approach. The research work was relevant from the point of view of patients, hospitals and pharmaceutical industry.

3. Major Research Project : Nanoemulsion based Transdermal Therapeutic Systems for Management of Hypertension

Investigator: M. Aqil, Asgar Ali, Y. Sultana, R.K. Khar and FJ. Ahmad

Submitted to Funding agency: Dept. of Biotechnology(DBT), CGO Complex, Govt. of India. for Amount : Rs **50.17 Lakhs**
