

FOOD TECHNOLOGIST, EDUCATOR, RESEARCHER

PROFILE

As a dedicated Food Technologist with a strong foundation in both industrial and research environments, I bring a comprehensive perspective to the classroom.

Currently, I serve as an Assistant Professor, where I teach and mentor undergraduate and postgraduate students in food technology, helping shape the next generation of industry & research professionals.

My journey includes hands-on industrial experience and a robust research background, giving me a unique edge in blending academic theory with real-world applications.

Passionate about innovative food solutions and committed to fostering an engaging learning environment, I'm here to inspire and contribute to the dynamic field of food science, engineering and technology
