

## **SEMINARS/CONFERENCES AND WORKSHOPS**

- ✓ One-Day International Seminar On "**Recent Advancements in Chemical and Life Sciences**"

**Date:** October 26, 2023

**Venue:** Convention Centre, Jamia Hamdard, Hamdard Nagar, New Delhi-110062

Organized by Department of Chemistry, Jamia Hamdard, New Delhi-110062 In Collaboration with Indian Society of Analytical Scientists – Delhi Chapter

### **Seminar Aim**

The seminar aimed at providing a robust platform for students and researchers to share the latest knowledge and recent trends in the fields of Chemical, Pharmaceutical, Environmental, Agricultural, and Life Sciences.

### **This interdisciplinary seminar featured:**

**Discerning Invited Talks:** By renowned experts from academia and industry.

**Networking Forums:** Opportunities for participants to connect and collaborate.

**Industry Interactions:** Strengthening academia-industry ties.

**Oral and Poster Presentations:** Showcasing innovative research and advancements.

The event successfully fostered intellectual discussions, inspired innovation, and created avenues for collaborative research in these pivotal scientific domains.

- ✓ One-day workshop on "**Advances in Chromatographic Techniques**" was organized by the Department of Chemistry, SCLS, in Collaboration with Bonna-Agela Technologies (A Phenomenex Company)

**Dated:** 12th February 2018

**Venue:** Convention Centre, Jamia Hamdard New Delhi-110062

### **Introduction to the Seminar**

A workshop on current advances in chromatographic techniques and their importance in compound identification and purification was conducted on 12th, February 2018. The speakers addressed in depth the latest scientific and technological advances, emerging applications, critical processes, and challenges in the field of chromatography. The workshop provided an excellent opportunity for those interested in chromatographic techniques to learn more about their applications to diverse areas. The purpose of the workshop was to provide hands-on training to share practical knowledge of analytical chemistry and chromatographic techniques.

### **LECTURE SERIES**

- Topic: O-alkynyl aldehydes and O-alkynyl/alkenyl arene nitriles  
as building blocks for the construction of small organic molecules.

**On: 22.03.2023**

**Prof. Akhilesh K. Sharma (DU)**

- Topic: Circular Plastic Economy-Value creation from Single use plastic waste

**Date: 02.03.2023**

**Prof. G. S. Kapur**

➤ **Recent Advances in field of corrosion: Sustainable approach**

**Date:** 7.12.2022

**Prof. Bindu Mangla**

**Field Visit of MSc (2021-2023) at Hamdard on**
